

S.E. Wisconsin Antique Power & Collectibles Society

Dear Community Member:

The Southeast Wisconsin Antique Power and Collectibles Society (SEWAPCS) is hosting its 32nd annual Fall Harvest Days festival this September 9-10, 2023 at the Racine County Fairgrounds. For years, our non-profit show has provided an opportunity to share with our community Wisconsin's rich history of agriculture by creating an exciting and educational atmosphere for collectors and families alike.

Our club is dependent on our volunteers, fundraisers, and contributions from local businesses to expand our activities and educational experience. **This year, we are looking for sponsors to generously donate items to be included in our bucket raffle.** Companies and individuals who are able to contribute not only support our program, but receive a great advertising opportunity. All proceeds generated by our club are used to expand our community reach and improve our annual show.

Donations can be made in the following forms:

- Physical merchandise or gift certificates for products and/or services
- \$20 advertising table space where you can provide business cards, flyers or product demonstrations
- Monetary donations

Contributors receive:

- Product placement at the bucket raffle table, located inside a high-traffic building
- Listed as a contributor on our website, social media accounts, and any printed material promoting the raffle
- Inclusion on all promotional materials advertising the bucket raffle pre, during, and post-show

All donations are tax deductible. Upon receipt of your gift we will send a letter with a receipt for tax purposes. You may contact our board members, Lori DuPont or Jill Giorno, to make arrangements for pick up or to mail in your donation by September 1, 2024.

Please feel free to reach out with any questions you may have, thank you for your consideration.

Sincerely,

Lori DuPont
