

Dear Community Member,

We are thrilled to invite you to the 33rd Annual Fall Harvest Days & Annual Antique Tractor Pull on September 7th - 8th, 2024, at the Racine County Fairgrounds. Proudly hosted by the South East Wisconsin Antique Power & Collectibles Society (SEWAPCS). The goal of the Society is to preserve and showcase the machinery, equipment, and techniques used in early agriculture and homesteading to educate the public and future generations about our rich heritage

We have the desire to expand our activities and share more about the agricultural history of Racine County and its surrounding areas. To do so, we are asking for your support. As a registered 501(c)3 Non-Profit organization, all proceeds generated from donations will go towards expanding our Show and the Society. Your contribution is 100% tax-deductible. When you donate, you will be recognized as a contributor online, in the show book, or banners on site. We guarantee that your donation will make a significant impact on the success of our show and the Society.

Our past shows have been successes, and we anticipate even larger attendance this year. To make this year's show an even greater success, we need your help. Your support and generosity will help us continue to showcase the agricultural heritage of our community and preserve it for future generations.

If you have questions, contact Randy Graf, President, at (262) 939-5660 or email at sewapcs@fallharvestdays.com. We would greatly appreciate your contribution. If you can donate, kindly fill out the attached form and mail it to the P.O. Box listed. We will return the form as a receipt after processing your donation.

Thank you in advance for your support,
The Board and Membership of SEWAPCS
